ACA Cichlid Speaker Program

The ACA, realizing the financial cost of bringing in an outside speaker, is proud to offer to our members the **ACA Cichlid Speaker Program**, sponsored by Marineland and AquaScience Research Group. Basically, here's how the program works. Choose your speaker from the list of ACA sponsored speakers. There will be no cost to the club for honorariums and the ACA will pay half of the round trip transportation for any of these speakers to attend your meeting, up to a maximum dollar amount of \$100.00. You will be responsible for all additional expenses including lodging and meals. You will need to contact the speaker directly to arrange a convenient schedule. Once the date has been finalized, please contact Chuck Rambo 6474 Baguio Court, San Jose, CA 95119, 408-225-9175. It is imperative to get in touch with Chuck because the ACA has set a limit of 15 total speaking engagements per year for the ACA Cichlid Speaker Program. Availability is based on a first come - first serve basis and a 90 day notice is required. Transportation for the speaker should be arranged by you. After receiving permission to proceed from Chuck, you should submit a copy of your invoice for the reimbursement of travel expenses. All societies are limited to one annual participation. Good luck and cichlid power!

Guidelines for Trading Post Advertisements

ACA members only may advertise in the Trading Post. The first ten lines (Sells/Wants) of cichlids are free. Additional lines of cichlids are \$5.00 (U.S.) each. Non cichlid fish are \$10.00 a line even if it is your only line. Payment and ads must be received by the 15th day of even numbered months. **THE NEXT DEADLINE IS December 15th, 2003.**

HOW TO SEND YOUR AD:

- (1) **E-mail** the ad to ellenbej@pacbell.net
- (2) **FAX** the ad to 408.927.8301 (Available 24 hrs).
- (3) **Mail** it to **Jim Ellenberger**, 6749 Elwood Road, San Jose, CA 95120-5401.
- (4) Phone 408.323.0693 home

RULES FOR SELLERS:

- (1) Your name, email or website, phone #, in the bold header and complete address, shipping and any other instructions have to fit on the second line.
- (2) You must use the scientific name of your fish and if possible give a photo reference or state the collecting location. Place trade names and color forms in parentheses after the scientific name.
- (3) Up to two color morphs per line, but only one size and price per line.

NOTE: The Trading Post will not list bizarre fish/hybrids. The editor reserves the right to standardize names and determine whether a fish is appropriate to list. His decisions can be overruled by the BOT.

ADVICE FOR BUYERS:

Caveat Emptor! The American Cichlid Association is not responsible for the advertisements contained in this publication. Buyers are urged to obtain a photo reference and full scientific name from seller. Trade names may be made up by collectors, importers, wholesalers, retailers, or breeders. Listings that lack a photo reference, or include a color in the description may also be made up. Find out if the seller has the fish in their possession and if live arrival is guaranteed.

Join the American Cichlid Association!

Editor's Soapbox

You are very lucky with this Trading Post issue, I don't have that much extra space to fill in like the last two issues. Let's start with the important stuff... I am still out of work. So if any one knows of an opportunity in Semiconductor Equipment Process Engineering or Technical Marketing, please let me know. I will definitely entertain relocating to anywhere outside of California.

Now, on to the real problem: I received this email from some guy named Lee Newman. Seems he is one of the technical editors of the other ACA publication, the *Buntbarsche Bulletin*. Lee writes:

Hi Jim,

If you are going to put an editorial in the next issue of TP, would it be possible to say something that might sound like encouragement to pen an article? Over the last year and a half, I've been periodically contacting some of the TP users with the hopes of getting them to write about the species they are offering for sale - for two reasons, it generates some material for BB (much needed old world material) and the articles might serve to drum up some business for the seller. Sounds like a win/win, but so far no articles. Anyway, thanks for the help, if you can.

Lee

OK, all of you who regularly place ads in this Trading Post, please write an article or two about your fish. As Lee states, this will get much needed material and you can plug your fish. What would be really nice if everyone of the BOT members would write an article as well. (Hey Lee, if you are going to pick on the TP advertisers, why not include the BOT?) Speaking of the BB, I just got mine yesterday. If you missed the ACA Convention in Cincinnati in July, you will just have to read the BB. If you are keeping fish, please write Lee an article!

Editor's Soapbox continued

One last item before I sign off, it seems that I have been remiss in my latest Soapbox's in not picking on our webmaster, Dr. Ron Coleman. I see Ron almost every month as he is a member of the same local cichlid club as I am (Pacific Coast Cichlid Association), and he mentioned that he misses my tongue-in-cheek comments about picking a Username and Password each issue. Well, Ron, this is for you: Ron had several good and well meaning passwords this issue. I went with the one that I thought was the best, but Ron did have a couple of other choices: support research, think longterm, and the best one, something about think-before-you-open-your-mouth. And I thought that my choice last issue, pink convict, was pretty bad. Anyway, I have seen how Ron has come to his senses and picked a most meaningful password.

Anyway, that's all for now - **Jim**
