ACA Cichlid Speaker Program

The ACA, realizing the financial cost of bringing in an outside speaker, is proud to offer to our members the **ACA Cichlid Speaker Program**, sponsored by Marineland and AquaScience Research Group. Basically, here's how the program works. Choose your speaker from the list of ACA sponsored speakers. There will be no cost to the club for honorariums and the ACA will pay half of the round trip transportation for any of these speakers to attend your meeting, up to a maximum dollar amount of \$100.00. You will be responsible for all additional expenses including lodging and meals. You will need to contact the speaker directly to arrange a convenient schedule. Once the date has been finalized, please contact Chuck Rambo 6474 Baguio Court, San Jose, CA 95119, 408-225-9175. It is imperative to get in touch with Chuck because the ACA has set a limit of 15 total speaking engagements per year for the ACA Cichlid Speaker Program. Availability is based on a first come - first serve basis and a 90 day notice is required. Transportation for the speaker should be arranged by you. After receiving permission to proceed from Chuck, you should submit a copy of your invoice for the reimbursement of travel expenses. All societies are limited to one annual participation. Good luck and cichlid power!

Guidelines for Trading Post Advertisements

ACA members only may advertise in the Trading Post. The first ten lines (Sells/Wants) of cichlids are free. Additional lines of cichlids are \$5.00 (U.S.) each. Non cichlid fish are \$10.00 a line even if it is your only line. Payment and ads must be received by the 15th day of even numbered months. **The deadline is posted throughout every issue of the Trading Post.**

HOW TO SEND YOUR AD:

- (1) **E-mail** the ad to ellenbej@pacbell.net
- (2) **FAX** the ad to 408.927.8301 (Available 24 hrs).
- (3) **Mail** it to **Jim Ellenberger**, 6749 Elwood Road, San Jose, CA 95120-5401.
- (4) Phone 408.323.0693 home

RULES FOR SELLERS:

- (1) Your name, email or website, phone #, in the bold header and complete address, shipping and any other instructions have to fit on the second line.
- (2) You must use the scientific name of your fish and if possible give a photo reference or state the collecting location. Place trade names and color forms in parentheses after the scientific name.
- (3) Up to two color morphs per line, but only one size and price per line.

NOTE: The Trading Post will not list bizarre fish/hybrids. The editor reserves the right to standardize names and determine whether a fish is appropriate to list. His decisions can be overruled by the BOT.

ADVICE FOR BUYERS:

Caveat Emptor! The American Cichlid Association is not responsible for the advertisements contained in this publication. Buyers are urged to obtain a photo reference and full scientific name from seller. Trade names may be made up by collectors, importers, wholesalers, retailers, or breeders. Listings that lack a photo reference, or include a color in the description may also be made up. Find out if the seller has the fish in their possession and if live arrival is guaranteed.

Join the American Cichlid Association!

Editor's Soapbox

Sorry for being late with this issue, but I have had a very bad sinus infection and I just haven't been awake long enough to get started. I'm still on antibiotics, and not fully recovered, but I must get the TP completed and to the printer so you can read all of the wonderful ads.

Speaking of ads, I nearly had a heart attack because I was missing an ad. The reason for the panic is that the ad came in on my deadline day via USPS Express mail. Of all the ads you see in this TP, only three came by mail and the rest by email. Anyway, you can see why I panicked since I couldn't find the ad and he paid extra to get it to me on time. I finally found it, under a pile of BAP reports that I need to log in for my local club. Anyway, I'm really glad that I found it. You do not need to Express mail me any ad, just send it by regular mail, or better yet, email it. Even though the deadline is the 15th, I usually don't get started until about the 25th.

Another comment about the ads: to get the Species List, I take all of the ads and combine them, then sort it by genus. For each genus, there may be several different species, but I don't look at that, just the genus. This issue had one genus with a whole lot of ads, and the genus is *Symphysodon*. Yes, Discus! Usually it is *Aulonocara* or *Neolamprologus*, but when you advertise for Discus, that is usually all you have. I'm just glad that Mike Heppner was out of town because we would have seen another 10 lines of Discus. You know, the ACA logo is in the form of an Angelfish, and in this TP, there is only one ad for an Angelfish (*Pterophyllum*). Maybe we should think about changing the logo to a Discus? (I know that Ken Davis will agree to that!) Just kidding!

Well, that's all for now, and you should start getting ready for the convention in Denver in July. You need to get your hotel booked and get your airfare if you already haven't. You should also think of what fish are you looking for, and what fish are you going to bring to sell, because that is the one that I will be looking for!
