### ACA Cichlid Speaker Program

The ACA, realizing the financial cost of bringing in an outside speaker, is proud to offer to our members the **ACA Cichlid Speaker Program**, sponsored by Marineland and AquaScience Research Group. Basically, here's how the program works. Choose your speaker from the list of ACA sponsored speakers. There will be no cost to the club for honorariums and the ACA will pay half of the round trip transportation for any of these speakers to attend your meeting, up to a maximum dollar amount of \$100.00. You will be responsible for all additional expenses including lodging and meals. You will need to contact the speaker directly to arrange a convenient schedule. Once the date has been finalized, please contact Chuck Rambo 6474 Baguio Court, San Jose, CA 95119, 408-225-9175. It is imperative to get in touch with Chuck because the ACA has set a limit of 15 total speaking engagements per year for the ACA Cichlid Speaker Program. Availability is based on a first come - first serve basis and a 90 day notice is required. Transportation for the speaker should be arranged by you. After receiving permission to proceed from Chuck, you should submit a copy of your invoice for the reimbursement of travel expenses. All societies are limited to one annual participation. Good luck and cichlid power!

Speakers Available for this program:

**Guidelines for Trading Post Advertisements**

**ACA members only may advertise in the Trading Post.** The first ten lines (Sells/Wants) of cichlids are free. Additional lines of cichlids are \$5.00 (U.S.) each. Non cichlid fish are \$10.00 a line even if it is your only line. Payment and ads must be received by the 15th day of even numbered months. **The deadline is posted throughout every issue of the Trading Post.**

**HOW TO SEND YOUR AD:**

- (1) **E-mail** the ad to ellenbej@pacbell.net
- (2) **FAX** the ad to 408.970.5125 (Available 24 hrs).
- (3) **Mail** it to **Jim Ellenberger**, 304 Bodega Way, San Jose, CA 95119-1602.
- (4) Phone 408.225.0693 home, 408.209.6589 cell

**RULES FOR SELLERS:**

- (1) Your name, email or website, phone #, in the bold header and complete address, shipping and any other instructions have to fit on the second line.
- (2) You must use the scientific name of your fish and if possible give a photo reference or state the collecting location. Place trade names and color forms in parentheses after the scientific name.
- (3) Up to two color morphs per line, but only one size and price per line.

**NOTE:** The Trading Post will not list bizarre fish/hybrids. The editor reserves the right to standardize names and determine whether a fish is appropriate to list. His decisions can be overruled by the BOT.

**ADVICE FOR BUYERS:**

**Caveat Emptor!** The American Cichlid Association is not responsible for the advertisements contained in this publication. Buyers are urged to obtain a photo reference and full scientific name from seller. Trade names may be made up by collectors, importers, wholesalers, retailers, or breeders. Listings that lack a photo reference, or include a color in the description may also be made up. Find out if the seller has the fish in their possession and if live arrival is guaranteed.

## Editor's Soapbox

---

---

First of all, I must appologize on how late this issue is. I have been very good so far at keeping on time, but this month has been very busy for me. I just moved my house and my computer has been packed for a while. The moving part is taking a lot longer than I expected, and I still do not have internet access at my new house. I have been using my computer at work to send and receive emails and to get this issue to the printer. I am amazed how much I rely on my home computer and internet access.

So, I moved from a five bedroom, three bath, two story house in a very nice part of San Jose, to a four bedroom, two bath, single story in a shoddy part of San Jose. You see, I have a neighbor that is a real jerk. OK, so it's Chuck Rambo and he lives about ½ mile away. And the area is really nice! AND MY KNEES DO NOT MISS THE SECOND STORY!

I did have a little problem moving, I had to tear down the fishroom in the garage. I had built an 8½' by 13' fishroom with three levels of tanks, fully insulated, lots of power, with a workbench on one of the outside walls in the old house. This thing cost me over \$3000 to build, and took about 9 months to put together. And I tore down the whole thing in a week! And took most of it into the dumpster at work. What a waste! Of course, at work I have a 33' by 20' fishroom with six levels of tanks. I guess that I don't really need a fishroom at home, heck, I don't even have a tank (empty or full) at the new house. I JUST NEED TO GET MY DSL UP AND RUNNING!

Oh, I had a great time in Fort Worth. Found some great eating and drinking establishments (The Flying Saucer was the best), got to meet and have dinner with Jack Wattley and David Boruchowitz (editor of TFH magazine), got my very first win in a show class (second was Ron Georgeone and third was Rick Perez - do I feel good!), and I got to meet a lot of my contributors for the Trading Post (especially Lynn Hopkins - I found out

## 2006 Board of Trustees Election Candidate Biographies

---

---

### **Ron Coleman**

I keep cichlids both as a hobbyist and as a scientist who studies parental care. My goal has been and continues to be to encourage greater communication among all those involved with cichlids; to bring hobbyists and scientists closer together and to inspire young people to keep cichlids. I have been the ACA webmaster for 3 years and created and maintained the Cichlid Research Home Page for almost a decade.

### **Chris Coleman**

My name is Chris Coleman, and I reside in Virginia Beach, Virginia. My fish keeping experience spans nearly thirty-nine years. I have maintained up to twenty-five tanks at one time but now keep just four large systems of Central American cichlids. Over the years, I have raised and bred representatives of nearly every cichlid genus. My overall business acumen coupled with my love for the hobby makes me uniquely qualified to serve on the BOT.

### **Wayne S. Leibel**

ACA Fellow, former Buntbarsche Bulletin editor, many-time member of the BOT and two-time Chair in 2000 and 2001, I bring my status as a 'Boring Old Guy' (BOG)/historian to the BOT mix, reminding the newer members in a constructive way where we have come from and what we have already done: useful continuity between the past, the present and the future. I hope to serve the ACA yet again during these, our 40th anniversary celebration. As always, it's about the member.

### **John Nicholson**

I got my first fish in 1972 at age 7. I kept fish off and on ever since. I became active in the Texas Cichlid Assn. approximately 4 years ago. I have served on the board for the last 2 years. I enjoyed the TCA meetings so well that I started looking for clubs for the non-cichlids that I also raise. I ended up being a member of the Dallas Killifish Club, the Texas Killifish club, the Dallas Betta Club, the North American Discus Assn., Federation of Texas Aquatic Societies, and of course the grand daddy of them all the ACA. I have found that I enjoy the fish shows/conventions almost as much as raising fish.

## 2006 Board of Trustees Election Candidate Biographies

---

---

### **Ronald Nielson**

I have been on the ACA BOT for the last two years and a former president of the Capital Cichlid Association. I have been actively working with endangered cichlids and other fish for the past few years. I currently maintain 400+ tanks and manage a wholesale distribution/import business. I hope to get more involved with elementary school programs to educate children about cichlids and endangered fish and hope some of this can be done within the ACA in the future. I am currently taking part in the ACA speaker program and regularly present talks at various clubs.

### **Bob Randall.**

I enjoyed serving as a trustee for Minnesota Aquarium Society (MAS) and as elections coordinator for ACA. I continue to serve MAS running our bowl show and during our yearly show. My goal is always to involve our members and improve our society. As an ACA trustee, I will work for these goals and to continue to keep ACA as a 501(3)c non profit organization. Recent BOTS and ACA attorney achieved this status. We must maintain this status.

### **Mark Whitney**

I have been a member of the ACA for over 20 years. I have attended many of the national conventions. I served a two year term on the ACA board and was the past secretary. I was convention chair for the ACA 2004 Convention held in Denver. I want to be on the board to help make the ACA better for our members and to help with programs that will bring youth into our hobby and maybe as members of the ACA.

## The ACA is Looking for a Few Good Men (or Women)

Yes, the ACA is looking for some people to fill three open Chair positions:

Guy Jordan Coordinator

Nominations Chair

Club Liaison

The Guy Jordan Coordinator is responsible for reviewing the many grant requests, deciding which are worthy of the grant, and making recommendations to the Board of Trustees as to which requests should be funded. The person that takes over this position should be familiar with the writing of grants and the scientific part of the hobby. The outgoing chair is Dr. George Barlow.

The Nominations Chair solicits people to run for the BOT. For every election, seven candidates are selected by the Nominations Chair to run for four positions. The Chair must collect the bios from the candidates, pare them down to the required maximum number of words, and forward them to several other Chairs. The outgoing Nominations Chair is Bob Randall, and he is leaving to be able to run for the BOT. Chris Borgese has stepped in for the interim.

The Club Liaison Chair deals with all the aquarium societies and clubs around the world. Clubs ask to become part of the ACA Club Liaison Program and they send their information about meetings to the Club Liaison Chair which then forwards it to the BOT and more importantly, gets the information posted on the ACA website. The outgoing Chair is Craig Morfitt.

Contact any BOT member if you are interested in any of these positions.

## ACA Cichlid Conservation Policies for the Trading Post

In 2004 a proposal was approved by the ACA BOT to promote endangered cichlids in the ACA Trading Post. A list of 154 cichlid species can be found at the IUCN's [redlist.org](http://redlist.org). After the webpage comes up then do a search for cichlidae and the list will appear. These cichlids have been evaluated by scientists and it has been determined that these species are either extinct, extinct in the wild, critically endangered, endangered, vulnerable, near threatened or data deficient. In order to promote the propagation of these cichlids, Trading Post will allow free lines in the TP to ACA members to advertise the sale or want of these cichlids. Currently ACA members are allowed a total of ten lines for free with additional lines costing \$5 per additional line. Cichlids on this red list placed in Trading Post will not be charged the \$5 fee if additional lines are required. This will cover all the Lake Victorian, Malagasy and Cameroon Lake cichlids as well as some Central American and South African species. If there are any questions about cichlids on the red list they should be directed to [Charles\\_Rambo@urscorp.com](mailto:Charles_Rambo@urscorp.com). The ACA hopes its membership will review this list and make an effort to obtain and propagate these species for future ACA members.

### Editor's Soapbox cont.

that she is really a he - that came out wrong... I thought that Lynn was a woman and I ran into Lynn in the rental room where I quickly deduced that Lynn is a guy. He likes to keep Tanganyikans and is from the Denver area. Nice guy.). I better get off this line before I really get myself into trouble.

Not too many submissions this month, and you know what that means, that you have to read more of my drival. So, I'll spare you any more pain and say, send me your ads, and I'll write less.

- Jim
