Trading Post

September

1997

Pulp From The Primary Predator:

If you are reading this then my first Trading Post is a success. Hopefully the printer didn't mess up the pages, and the mailer didn't mess up the labels. I will take the blame when due, but that will be hardly ever. There was a mistake (cough cough) I made about my fax number. Please note the correct one (FAX: 541-342-7050). I live in Oregon (that's pronounced ORYGUN) and it is 5 AM here when it is 8 AM on the East Coast. So, please don't call or fax until noon EST.

The BOT changed the ad policy at the Chicago convention. There are now only 5 sells and 5 wants for free. Additional sell lines (over 5) are \$5 a line. The cost of producing TP is about \$2000 a month. So if you want to run a large ad, it will now cost more, but you will be helping to hold ACA's annual dues down.

I see a tendency for sellers to place a lot of extras in their ads. Remember, on the top line only name, address, phone #'s, and e-mail addresses. Then you get one line for shipping information. Use that line for shipping, or for combining with Bubba, or advertising web sites. If there is more than two lines worth, I cut it!

A simple request: Decide how big your fish are. This typing is a nuisance. Having to type 1 1/4" - 1 1/2" may be more accurate, but is it really necessary? How about one size per line in 1/2" increments up to 2", then just an inch at a shot (simplifies the database). I'm contemplating \$1 increments on the pricing.

As you can see, I have dropped numbering the sellers and the summary by species. You are now going to have to read the TP. It also saves me a ton of work. You may also learn some new fish names.

Pet gripe of the month: Fish names. *Haplochromis ahli* "Electric Blue" is a nice fish that doesn't exist anymore. The new name is *Sciaenochromis freyeri*. This should be widely known. "Electric Blue" is not a color morph, it is a trade name. I will be dropping all trade names and names invented by wholesalers and importers when a valid species name exists. Another example is *Aulonocara* "Ruby Red", "Rubescens", "German Red", "Red Peacock": give me a break. These are all the same tank developed color morph of *Aulonocara sp. maleri*. The Germans keep changing the name (as well as hobbyists, wholesalers, exporters, importers) so that you, the victim, will keep shelling out money. These fish are now all *Aulonocara sp. maleri* "red AS".

I know, discus and angelfish have tank raised strains too. Every discus breeder seems to invent their own name. Have you seen Senegalese Emerald Blues? How about Brazilian Forest Greens? So these are all *Symphysodon aequifasciatus* "pidgeonblood AS".

AS=Aquarium Strain. If I see a "color" behind a Genus instead of a "location", I'm probably going to axe it unless an explanation is provided.

You can reach me at 541-342-6968, hanneman@rio.com with comments. If you write me, I might print it.

Cichlid Power,
Eric

PS: VOTE!!!!!!!!!!!!!!

Guidelines for Trading Post Advertisements

Only ACA members may advertise in the Trading Post.

DEADLINE: All ads must be received by midnight, PST, on the fifteenth day of even numbered months.

COST OF AD: The first five Sells or Wants are FREE. Additional items are \$5.00 each. Full payment (payable in U.S. Dollars) must be received before the deadline.

CAVEAT EMPTOR! The American Cichlid Association expressly disclaims any responsibility for the advertisements contained in this publication. All transactions between buyers and sellers from ads in Trading Post are at member's risk.

HOW TO SEND YOUR AD:

- (1) The **Online Trading Post** is found at <http://petsforum.com/acamember/> at the ACA's web site . I will check there frequently, verify your membership, and add your ad to the online searchable database. Then I'll download the ad when it's time to print the issue.
- (2) **E-mail** the ad to hanneman@rio.com.
- (3) **FAX** the ad to 541-342-7050 (9AM to 10PM PST usually).
- (4) **Mail** it to Eric Hanneman, 1038 E. 21st Avenue, Eugene, OR 97405.
- (5) Don't call me (541-342-6869) unless you want to talk about names.

HOW TO DO AD LAYOUT:

- (1) Your name, address, phone number, fax, email, web sites, shipping instructions, serruptitious other species available ads, and combine with bubbas all have to fit on two lines. If it's longer, I edit it.
- (2) You must use the full scientific name on your species listing. Use of location names is only permitted when fish is a new/unidentified species, or a color morph of a species. Part of the mission of the Trading Post is the same as the ACA's, and that is education. If I think that a name is being used incorrectly, I might correct it. Append "AS" for aquarium strains. If you don't tell me why I shouldn't, I might.
- (3) Only Cichlid species may be listed as Sells, two morphs per line.
- (4) Please list the size of your fish in 1/2" increments up to two inches and then round up to the nearest inch (like you don't already).
- (5) Only one price per line, please try to use increments of a dollar.
- (6) If it's too big I cut it.
- (7) If I can't read it I might get it wrong.
- (8) For those of you who like to find mistakes, I have deliberately included several in this issue. Please pat yourself on the back if you find one.

The Next Deadline: Wednesday October 15, 1997

BOARD OF TRUSTEES

Chuck Rambo (Chair), 6474 Baguio Court, San Jose, CA 95119, (H) 408-225-9175, (W) 408-297-9585, (Fx) 408-297-6962

American Cichlid Association Board of Trustees Elections

Please vote for up to four candidates.
Ballots must be received by October 15, 1996.

Lee Ann Clary, Downers Grove, IL. Lee Ann, a CPA, acts as Controller of Lawrence-Bonfitto Trading Company. She resides with her husband Phil and a son. She has been active in the Greater Chicago Cichlid Association for the past 5 years, serving as Program Chairman and 1997 ACA Convention Chairman. Lee Ann would like to help build an organization that is responsive to the membership and that remembers that fishkeeping should be fun. She will work hard to bring financial responsibility to the Board.

Benny Moreno, Prescott Valley, AZ. Benny would like to nominate himself and help out ACA and be Board of Trustees. And work hard at it, knows it volunteering and nobody get pay. He cares about cichlids and has internet with CS. When he sets up everything then he can go online. He got a credit card now as soon as it come he can pay off CS. It has not come yet. He likes dealing with fish and knows alot about fish and can tell when a pair is getting ready to mate.

Frederic Potvin, PhD, St-Augustin, Quebec. "My main interest in the BOT is to involve myself in a fish society devoted exclusively to cichlids, my favorite fishes. I've been considered a resource person for many years in my local societies (Association Regionale des Aquariophiles de Quebec), and would greatly appreciate to help promote cichlid keeping". With a doctorate in molecular genetics, Frederic maintains 45 tanks, his favorites being Malagasy, Victorian, and rare Central American species.

Chuck Rambo, San Jose, CA. Current Chair of the BOT, Chuck is a soil technician, is married to Carol, and has three children. He is the ACA Conservation Chair and previously served as Nominations Chair. He maintains 38 aquaria and belongs to the Lake Victoria Research and Conservation Program (LVRCP). Chuck has published articles in BB, Cichlid News, and the Cichlid Communique. He chaired the recent ACA convention held in San Jose and is an honorary lifetime member and past president of the PCCA. If elected, Chuck will strive to improve the ACA and the service it provides its members.

Joe Sprinkle, Louisville, KY. Currently serving on the BOT, Joe is president of the Louisville Tropical Fish Fanciers for 5 years, a board member for 9, 10 years in the ACA, has missed only one convention. Joe worked significantly on two conventions, ACA Louisville 1992, and ICC3 in New Orleans as Fish Show Chairman. He keeps Tanganyikans, Malawians and Central Americans. "I have an intense and consuming interest in the hobby and would like to put that interest to good use as a dedicated member of the board."

Ken Davis, Statham, GA. Ken is a horticulturalist at The University of Georgia, Plant Pathology Department. He has been keeping and breeding fish for 34 years. His current collection consists of about 100 species in over 400 tanks. His main interests are in Tanganyikans and Discus, but a few Malawian and Victorian cichlids have worked their way into the fish room. Ken and his wife Ruth owned a pet shop in Athens, GA before he went to work for the University. They are raising three lovely children on their farm in Statham, Georgia.

Todd Fleishans, Royal Oak, MI. Todd has recently become chair of the Publicity Committee. He has kept cichlids since he was 10 years old. His interests are mostly New World cichlids. He is currently maintaining 30 tanks. He is an active member of the Michigan Cichlid Association, currently holding positions as a member of the Board of Directors, exchange editor, as well as publisher of the club's publication, All Cichlids. Other than for a five year break, Todd has kept and bred cichlids for the last 24 years .
