ACA Cichlid Speaker Program sponsored by MARINELAND

The American Cichlid Association thinks that the greatest asset to an aquarium society is the benefit received by the membership when a speaker gives a lecture at the monthly meeting. A live presentation adds immensely to the enjoyment of the hobby and to further the knowledge of the attendees. The ACA, realizing the financial cost of bringing in an outside speaker, is proud to offer to our members the **ACA Cichlid Speaker Program**, now sponsored by Marineland.

Basically, here's how the program works. Choose your speaker from the list of ACA sponsored speakers. There will be no cost to the club for honorariums and the ACA will pay half of the round trip transportation for any of these speakers to attend your meeting, up to a maximum dollar amount of \$100.00. You will be responsible for all additional expenses including lodging and meals.

After selecting your speaker you will need to contact them directly to arrange a convenient schedule. Once the date has been finalized, please contact Gene Aldridge, Jr., 1195 North Van Dorn St., Alexandria, VA, 22304-1914, 703-931-9177. It is imperative to get in touch with Gene because the ACA has set a limit of 20 total speaking engagements per year for the ACA Cichlid Speaker Program. Availability is based on a first come - first serve basis and a 90 day notice is required.

Transportation for the speaker should be arranged by you. After receiving permission to proceed from Gene, you should submit a copy of your invoice for the reimbursement of travel expenses. Gene must also be notified of a mailing address for the shipment of ACA material. ACA material includes brochures, membership applications and copies of the *Buntbarsche Bulletin*, the official publication of the ACA. All societies are limited to one annual participation. Good luck and cichlid power!

Guidelines for Trading Post Advertisements

ACA members only may advertise in the Trading Post. The first ten lines (Sells/Wants) are free. Additional lines are \$5.00 (U.S.) each. Payment and ads must be received by the 15th day of even numbered months. *The next deadline is Sunday, August 15th, 1999.*

HOW TO SEND YOUR AD:

- (1) **E-mail** the ad to ehanneman@uswest.net.
- (2) **FAX** the ad to 541-342-7050 (9AM to 10PM PST usually).
- (3) **Mail** it to Eric Hanneman, 1038 E. 21st Avenue, Eugene, OR 97405.

ADVICE FOR BUYERS: Caveat Emptor! The American Cichlid Association is not responsible for the advertisements contained in this publication. All transactions between buyers and sellers from ads in Trading Post are at member's risk. Buyers are urged to obtain a photo reference and full scientific name from seller. Trade names are allowed, but may be made up by collectors, importers, wholesalers, retailers and breeders. Listings that lack a photo reference, and/or include a color in the description, or end in "AS" (Aquarium Strain), may be hybrids between two species.

ADVICE FOR SELLERS:

- (1) Your name, address, and shipping instructions have to fit on two lines. No other messages are allowed. Only cichlid species and books may be listed.
- (2) Use the full scientific name on your species listing and give a photo reference. If a photo reference is unavailable, give the collection location, and restrict the use of trade names and color. Append "AS" for Aquarium Strains.
- (3) While the Trading Post will not list known crosses (e.g. red parrot cichlid, OB peacock, *Cichlasoma* sp. "ebano"), aquarium developed fin shape and color mutants are allowed, provided the seller appends the name with "AS".
- (4) Up to two morphs per line, but only one size and price per line.
- (5) The editor reserves the right to change advertisements and make errors. The goal of the Trading Post is to sell fish, however the editor will strive to standardize names, for the sake of buyers, whenever possible.

Pulp from the Primary Predator,

Not too many ads this month, and it seems prices are going down, judging by the observation that some sellers ran the same fish as in April, but lowered their prices.

I still get requests to list catfish, but policy is that TP does not do that. I can sympathize, since I raise some beautiful [REDACTED] catfish myself.

If you read the guidelines above, you will see that each listing must include a genus and species name. Now we argue about the names, and some newly discovered fish might not have a species name assigned. You can always list them as *Genus cf. species*, meaning it is like that but not exactly, and then give a location or some color description. But a couple of sellers are getting real creative with new peacock names. Known species of *Aulonocara* do not include "albino green", "German lapis lazuli", or "OB". There have long been albino sports, but these new names coming off of mainly German lists are strongly suspected to be hybrids. As ACA members you have a responsibility to know your fish, and to educate the membership and general public about the correct names. If anyone sends me any peacock names without a species in the future I will NOT list them; or if I gather more consensus at the convention that the imports are just as much hybrids as the gross OB peacock, they will not be allowed in TP either.
